MG 73D2 14G12, or Tosh, is a large, stout bull that is expected to become a first-rate herd sire. He is a son of MG ITOSHIGENAMI 73D2, therefore we expect this bull to deliver excellent carcass, maternal, and milking traits. Tosh's dam, MG MS 13M 14C4 ET, combines exceptional phenotypic traits with superior carcass merit qualities. The result is a young bull that brings the total package, and a deal that you don't want to miss. Tosh is listed at \$6,000.

MG SAKURA 201G4, or Sakura, is an easy going, high-volume young bull with endless potential. His sire, YAR IWA SAKURA C715, is a high-quality, influential bull that adds growth, maternal qualities, and milking abilities to his progeny. Additionally, Sakura is backed by the great Sanjirou on his maternal side, which are lines that are proven for producing ultra high quality beef while excelling in maternal abilities. This bull represents all around top-notch quality, and as such, we expect him to significantly increase herd value in every area. Sakura tested fertile at an early age, so don't miss out on the potential that this impressive future herd sire holds. Sakura is listed at \$6,500.

DNL 73D2 SANJIV 377H, or Suave, is a broad, dense young bull weighing in at about 1200# with unmatched potential as a herd sire. MG ITOSHIGENAMI 73D2 is represented again by this own son's considerable size and thickness. Suave is out of a World K's Sanjirou daughter, which are recognized for producing prospects with superior carcass quality traits and heavy marbling. Suave is expected to increase carcass weight, marbling, growth, and maternal abilities. Additionally, Suave is very easy going, and he loves attention. This young prospect has a promising future, and you don't want to miss a chance to add these lines to your herd. Suave is listed at \$6,000.
